Tanvir Amin is a **Software Strategist** crafting robust backend systems & interactive digital experiences based in Dhaka, Bangladesh.

About

My name is **Tanvir Amin** and I work as a **Software Strategist** creating robust digital solutions with the combination of scalable architecture, business logic, and seamless user experience. I've been passionate about technology since my early childhood and remain dedicated to building high-performance systems and interactive applications.

When it comes to design I always like to approach projects from a **broader perspective**, considering **business goals, user needs, feedback** as well as the **overall feel and aesthetic** of the end-to-end experience.

I'm a driven person who can **get things done**. I'm also **detail-oriented** and craft everything with precision and care. I enjoy **tackling complex problems** and have a **sharp intuition**. I'm good at observing and internalizing all inputs and feedback to help make an optimal decision.

Experience

Xyronex Digital

Oct 1, 2024 - Present, { Remote }

Architecting and building scalable, high-performance web applications utilizing modern frontend and backend technologies. I am responsible for translating complex business requirements into seamless, production-ready digital solutions while optimizing server-side logic and database structures to ensure maximum throughput.

CodexLab BD

Oct 1, 2023 - May 1, 2024, { On-Site }

Served as a key developer, leading projects and implementing core functionalities across the entire software stack. I took ownership of the full development lifecycle, from initial system design to final deployment, ensuring all features were built for scalability and performance.

Optimus AI Lab

Jun 1, 2024 - Sep 1, 2024, { Contract }

Contributed to AI-driven frontend solutions and optimized user interfaces to enhance user engagement and performance. I focused on integrating complex AI models into intuitive web interfaces, ensuring that sophisticated backend capabilities remained accessible and performant for the end-user.

Ibcs-Primax Software Ltd

Mar 1, 2022 - Sep 1, 2023, { On-site }

I've been lucky enough to have my internship at Company.do I was responsible for helping with client projects, conducting user research, and creating prototypes. I also had the opportunity to attend design sprints and participate in critiques.

Education

Bachelor of Arts

National University, Bangladesh

2022 - Present

Higher Secondary Certificate (HSC)

Savar Cantonment Public School and College

Passed in 2020

Skills

- Frontend Development

Stellify E-Commerce

This is a production-grade, full-stack e-commerce solution engineered to bridge the gap between a high-end consumer storefront and a robust administrative suite. Named 'Stellify,' it is built with a decoupled architecture, ensuring that the business management logic remains separate from the user experience.
